

**68-5-16. Ratio of pharmacy technicians to pharmacists.** Except as otherwise provided in this regulation the ratio of pharmacy technicians to pharmacists in the prescription area of any pharmacy shall not exceed two to one. The ratio of pharmacy technicians to pharmacists in the prescription area of any pharmacy may be three to one if no less than two of the pharmacy technicians have a current certification issued by the pharmacy technician certification board or a current certification issued by such other pharmacy technician certification program approved by the board. The board may approve a pharmacy technician certification program that, as determined by the board, has a standard of pharmacy technician training not below that of the pharmacy technician certification board. (Authorized by and implementing K.S.A. 2004 Supp. 65-1663, as amended by L. 2005, ch. 66, sec. 1; effective, T-68-8-22-05, Aug. 22, 2005; effective P-\_\_\_\_\_; amended P-\_\_\_\_\_.)
